COAXIAL CABLING

ENDORSEMENT

Cabling Endorsement

PERPETUAL LEARNING INSTITUTE offers a comprehensive range of courses that enable the industry to efficiently and effectively construct and certify communication networks.

ACMA Registration Endorsement

On successful completion of this course, attendees will be provided with the required documentation to apply to an ACMA accredited organisation to obtain a cabling licence (eg. TITAB Australia).

This course is designed for individuals to understand the required knowledge and skills to be able to successfully install, terminate and test coaxial cabling on customer premises. Attendees will also learn about communication applications, telephony, data and video, media, digital and analogue, digital broadcasting, computer networks, local area networks (LAN) and wide area networks (WAN).

On completion, participants will be eligible to apply for the Coaxial Cabling Endorsement (working with Coaxial Cabling on domestic / commercial premises) on the Open Registration licence. Participants planning to attend this course are encouraged to have already successfully completed the Open Registration licence.

- Describing the construction of coaxial cable;
- Recognising different types of coaxial cable;
- Recognising and detailing the components of coaxial cable;
- Recognising and correctly applying coaxial termination tools;
- Terminating coaxial connectors correctly;
- Testing the terminated coaxial cable safely and accurately.

Course Assessment

- Theoretical assessment
- Practical assessment

COURSE INFORMATION

Course Locations:

Melbourne, Adelaide,
Sydney, Hobart,
Canberra,
Cairns,
Brisbane,
Darwin and Perth

Location and timing will be advised at enrolment

Class Size: 10 - 12 students

Duration: 0.5 Days

Learners are required to complete a portfolio of evidence to achieve certification of Units of Competency listed below.

Included:

All materials used for practical exercises; technical manuals for each attendee.

PERPETUAL LEARNING SOLUTION

- Working as an Approved Training Provider, PERPETUAL LEARNING INSTITUTE has enhanced courses that align directly to the skills needed for industry professionals.
- The creation and delivery of carefully constructed skill-based development programs is where we excel – the art of training.
- Unlike other training organisations which focus primarily on technology, PERPETUAL LEARNING INSTITUTE is structured toward practical hands-on knowledge development. Technology theory is combined with large quantities of practical exercises to reinforce the learning process.
- PERPETUAL LEARNING INSTITUTE is the market leader with regards to hands-on practical training that is supported by our real-world learning simulators – “We bring the field environment to you”.
