

TIME TO *ACTIVATE* YOUR NEW CAREER? INTERESTED IN WORKING ON THE *NBN*™?

Are you interested in being a part of building Australia's largest wholesale broadband access network the *nbn*™?

Due to a critical skills shortage in the Telecommunications sector, demand remains high for new entrants keen to launch a new career direction.

To be involved in working on this massive, on-going project, you do need to have some key credentials to gain registration to work on the *nbn*™.

PERPETUAL LEARNING INSTITUTE

eliminates the complexity from this process ensuring accreditation is successfully achieved. We guide and support you to complete the required accreditations and ensure that you are work-ready.

ACTIVATE PROGRAM:

Activate, our highly regarded pre-employment industry training program is a three-week course that provides you with the basic foundations to start working on the *nbn*™.

- OH&S
- Safety
- CAN (small)
- Tools / Hand & Power (ACCREDITED)

WEEK 1

WEEK 2

- ACMA: License (ACCREDITED)
Working in Telco
- Premises work install end-user equipment

- Joint Building
- Fibre Splicer
- LFN (Local Fibre Network)
- DFN (Distribution Fibre Network)

WEEK 3

On successful offer of employment, students will undertake the following HS&E components:

White Card	Police Check
First Aid	CPR
Traffic Management	Medical Clearance

Once you have completed the **Activate** program, you are ready to commence our **Accelerate** Traineeship program and begin your journey to paid employment, working in the Telecommunications industry with high calibre organisations such as *nbn™*, *Telstra™* and *Optus™*.

BENEFITS OF CHOOSING PERPETUAL

As part of our comprehensive Traineeship programs, **PERPETUAL** drives job placement focused activities with job seekers including:

- Connecting new entrants with jobs
- Offering opportunities to train, learn and earn an income.
- Providing a superior training syllabus - with over 500 individuals already industry trained
- *nbn™* training panel accredited
- Focus on job outcomes, not simply training

- Lowest ratio in the industry of student to test bed program, maximising training outcomes
- Exploring possible options for job placement in the Telecommunications industry
- Following up on job seeker activity post the training program.

CAREER PATHWAYS

Regardless of the employment stream you select, all Trainees can successfully undertake our 12-month **Accelerate** program and receive a nationally recognised qualification *Certificate III in Telecommunications Technology* – ICT30515 (*Optical / Copper*) and vital hands-on industry experience.

This training is a key part of linking students who complete paid traineeship programmes into industry.

QUALIFICATION OUTCOMES

Activate Pre-employment Program:

At the completion of the **Activate** program you will have the skills and accreditation to work in the following areas:

- Fibre Optics Traineeship
